ACADEMIC HISTORY

DevMountain
July 2018 - April 2019

Fieid of Study: Web Development

University of North Carolina at Greensboro
BA

SUMMARY

Currently working at Code Tenderloin teaching students to code. Transitioning into Software Engineering Role. Looking forward to making meaningful contributions to your team by executing clean efficient working code. Focused on clear understanding of project business owner goals to deliver the desired outcome. Demonstrated ability to learn quickly and excited for new challenges.

PROJECTS

DRIVE STYLE
https://github.com/estott10/dlow

August 2019

Description: Vehicle search site that allows users to build multiple car profiles based on select criteria. This search will render a list of vehicles. Each vehicle is linked to YouTube and will show a list of available reviews matching the make and model of the vehicle.

Technologies used: React.js, Node.js, SQL

THAT'S GOOD CHOCOLATE
http://www.thatsgoodchocolate.com
https://github.com/estott10/tgc

July 2019

Description: Front end for small business. I was asked to quickly build the front end for a company called That's Good Chocolate.

Technologies Used: JavaScript, HTML5, CSS

BRANCHES
https://branches13.herokuapp.com
https://github.com/WON3/Branches

Dec 2018

Description: Collaborative story building application. Users can create a new story, add to an existing story, or read a completed story. I designed the database as well as built the entire 'create a new story' feature.

Technologies used: React.js, Node.js, SQL, Material-UI

WORK EXPERIENCE

STYLIST TRAINING LEAD
RocksBox
March 2017 - May 2019

- Shadowed and assisted software engineering team with mobile friendly ReactJS based projects including billing address verification, accurately displaying customer credit, developing new modals, and implementing redesigned about us and careers pages built using Slim, HTML5, and SCSS/CSS www.rocksbox.com/about
- Redeveloped hiring practices onboarding, orientations, and training new employees on how to utilize our back-end software as well as job specific skills
- Monitored stylist performance metrics using Looker
- Provided targeted coaching on as needed basis assisting in SLA contract development and maintenance
- Conducted all hands/company presentations discussing best practices in training, technology used, and overall styling team updates

OPERATIONS ASSOCIATE
ThirdLove
August 2016 - March 2017

- Processed returns, product quality assessment, and order fulfillment
- Consistently exceeded performance expectations and completed over 1,000 returns in the span of one month
- Designed training documentation for employees at our fulfillment center
- Created manifests and coordinated shipments to our fulfillment center
